

STATE SOLID WASTE MANAGEMENT BOARD

877 5TH STREET
SACRAMENTO, CALIFORNIA 95814

FEB 15 1978

City of Palo Alto
250 Hamilton Avenue
Palo Alto, CA 94301

Dear Sir :

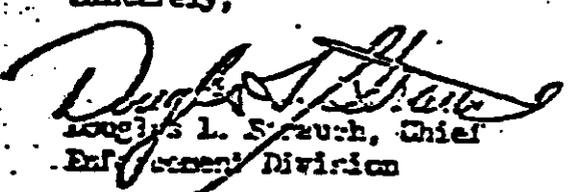

Pursuant to Government Code Section 66796.32(d), the State Solid Waste Management Board has considered the attached proposed solid waste facility(ies) permit(s) at its meeting of January 27 meeting and has concurred with the issuance of those permit(s) for the following facility(ies):

City of Palo Alto Refuse Disposal Site

43-AM-001

If you have any questions regarding this matter, please contact Bill Cullen at (916) 322 2661

Sincerely,

Douglas L. Strauch, Chief
Enforcement Division

attachments

cc:

(Solid Waste Facility Permit)

Decision #78-10

SUBJECT:

Proposed solid waste facility permit. Submitted by the Palo Alto City Manager as local enforcement agency.

FINDINGS:

The State Solid Waste Management Board makes the following findings of fact:

1. Proposed solid waste facility permit for an existing solid waste disposal site in Santa Clara County, received January 6, 1978, has been submitted to this Board for concurrence with or objection to its issuance. The proposed permit is for the following facility.

City of Palo Alto Refuse Disposal Site

43-AA-005

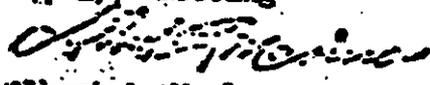

2. The proposed solid waste facility permit is consistent with the applicable county solid waste management plans; and
3. The proposed solid waste facility permit is consistent with the State Minimum Standards for Solid Waste Handling and Disposal; and
4. The State Solid Waste Management Board and its staff have reviewed the proposed solid waste facility permit and concur with the form and content of the permit.

CONCLUSION:

The proposed solid waste facility permit complies with the requirements of Article 2 of Chapter 3 of Title 7.3 of the Government Code, and with the requirements of the State Solid Waste Management Board. Consequently, the State Solid Waste Management Board concurs in the issuance of the subject proposed solid waste facility permit.

CERTIFICATION

The undersigned Executive Officer of the State Solid Waste Management Board does hereby certify that the foregoing is a full, true and correct copy of a decision duly and regularly adopted at a meeting of the State Solid Waste Management Board held on January 26-27, 1978 meeting

Albert A. Marino
Executive Officer

CITY MANAGER - City of Palo Alto	COUNTY Santa Clara	SOLID WASTE FACILITY # 43-AL-001
FACILITY NAME City of Palo Alto Refuse Disposal Site		PROPOSED August 4, 1977 SOLID WASTE APPROVAL 1-27-77
OPERATOR City of Palo Alto		ENFORCEMENT AGENCY APPROVAL December 23, 1977
FACILITY LOCATION 2380 Embarcadero Road, Palo Alto, California		

FINDINGS

1. This facility is an existing solid waste disposal site in operation prior to August 1, 1977, and the operator is requesting to receive a "grandfathered" permit. This facility is a 116 acre Class II-2 sanitary landfill. A modified ramp method is employed. The facility is located at 2380 Embarcadero Road in Palo Alto, California. Prior to August 1, 1977, as it does today, the site receives an annual average of 200 tons per day of commercial wastes on a seven day per week basis.

Types of wastes received at the site include:

- a. Residential and commercial wastes
- b. Tires (less than 15 per load)
- c. Landscape clippings and street sweepings - City Collected Under Restricted Materials that may only be admitted upon presentation of Special Admission tickets issued by the Building Inspection Office are:
 - 1. Demolition and construction spoils (when any piece is less than 36" in the longest dimension).
 - 2. Commercial loads of tires (15 or more per load)
 - 3. Large dead animals (if can't be disposed of at the crematorium at the Animal Services Center)

Hazardous wastes are not accepted at the site. The site is open Monday through Sunday 9:00 A.M. to 5:00 P.M. and is closed on New Year's, Easter, Thanksgiving and Christmas. Additional information concerning the facility's operation as it existed immediately prior to August 15, 1977 is in Exhibit 1.1-1: Interim Operations Manual of the Report Disposal Site Information.

2. Three alternate Completion and Closure Plans are currently under consideration. These
- a. Completion by 1980
 - b. Completion by 1987
 - c. Completion by 1997

This permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to revocation. Upon a significant change in design or operation from that described in this permit or in attachments thereto for the existing design and operation of a facility operating immediately prior to August 15, 1977, or from the approved intended design and operation of a facility which was not operating prior to August 15, 1977, or which herein is granted a permit modification, this permit is subject to revocation, suspension, modification or other appropriate action.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other governmental agencies.

OPERATOR	DATE

FINDINGS: (continued)

Each plan requires moving the operations from the present first lift topside to a second lift and shaping the facility in such a way as to meet the standards established by the Regional Water Quality Control Board. An E.I.R. is presently being done on the three alternatives. This is discussed in greater detail in Sections 6.2 and 12, and designs shown in Exhibits 6.2-2, 6.2-4, 6.2-5, and 6.2-6.

C. The following documents condition the design and operation of this facility:

1. Waste Discharge Requirement/Self-Monitoring Program and Order No. 75-55 issued by the Regional Water Quality Control Board. (Exhibit 14.-2 and 14.-3)
2. City of Palo Alto Planning Commission zoned the site as a public facility, and upon completion, to be dedicated as park land.
3. ABAG, BCDC and Santa Clara County have also designated the Baylands as open space areas.
4. U.S. Army Corps of Engineers - Permit No. PN 74-60-72 (9396-49) granted to continue development within navigational waterways.

D. Lands to the northwest and within 1,000 feet are zoned L-M-D; limited manufacturing. Lands to the west and within 1,000 feet are zoned A-C-D; agricultural conservation. (Exhibit 14.-4)

E. This facility's current operations are not in conformance with the State Minimum Standards for Solid Waste Handling and Disposal in that they violate Sections 17658, 17666, 17667, 17704 and 17705. The conditions of this permit will establish an appropriate schedule for compliance with these sections making this permit consistent with the standards.

F. The Palo Alto Refuse Disposal Site is consistent with the latest version of the Santa Clara County Solid Waste Management Plan.

CONDITIONS:

Requirements:

1. This facility must comply with all of the State Minimum Standards for Solid Waste Handling and Disposal.
2. This facility must comply with all Federal, state, and local requirements and enactments.
3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Prohibitions:

The following actions are prohibited at the facility:

1. Disposal of hazardous wastes
2. Scavenging
3. Open burning

Specifications:

1. No significant change in design or operation from that described in item F of the Findings Section is allowed, except for those changes which are required under the "CONDITIONS" portion of this permit.

PROVISIONS:

1. The following provisions must be met:

- a. By April, 1, 1978 the operator shall construct gates and a perimeter barrier to discourage unauthorized entry. (17658)
 - b. By April 1, 1978 the operator shall supply adequate sanitary facilities at the site. (17666)
 - c. By April 1, 1978 the operator shall assure that cover material that has been compacted to at least six (6) inches, be placed over the compacted landfilled wastes so that wastes are not left exposed longer than twenty four (24) hours. (17682)
 - d. By April 1, 1978 the operator shall assure that a compacted layer of at least twelve (12) inches of cover be placed on all but the final lift of the fill where no additional refuse will be deposited within 180 days. (17684)
 - e. The operator shall immediately monitor leachate as required by the Regional Water Quality Control Board, San Francisco Region. (17704)
 - f. By April 1, 1978, the operator shall commence monitoring of the site for the presence and movement of gases, and shall take necessary action to control such gases to prevent possible hazards. (17705)
2. This permit is subject to review by the enforcement agency, and may be suspended, revoked, or modified at any time for sufficient cause.
 3. Upon final selection of a Completion and Closure Plan by the City Council, the operator must submit said plan and accompanying E.I.R. within one month to the enforcement agency for review of compliance with this permit.

SELF-MONITORING PROGRAM:

The following items shall be monitored by the operator of this facility or his agent and records shall be kept and made available to the enforcement agency upon request

1. Quantity and types of wastes received at the site per day and per week.
2. Area of site utilized.
3. Quantity and types of wastes salvaged per month.
4. Number of vehicles utilizing the site per day and per week.
